LYNQ

Quick Start

DOCUMENT REVISION: 1.1

July 2021

Foreword

With your commitment, LYNQ can be implemented quickly and easily within your environment in less than twelve (12) weeks, so you don't have to wait long before you start to see the benefit and return from your investment.

Our fixed pricing model helps you to de-risk your project by providing assurance of delivery without costly overruns that often occur with time and materials models. We also understand that you have limited time, which is why we deliver our software remotely to avoid disruption to your business and to minimise expenses.

Of course if you would rather have the software delivered on-site we have a network of partners local to you who are on hand to assist. The choice is yours.
Our approach

Fixed price, rapid deployment
in under 12 weeks

DISCOVERY

1

Your **business understood** through process workshops

DESIGN & CONFIGURATION

2

Your solution configured to your design by **our experts**

TRAINING

3

Your users trained based on your **business process**

USER ACCEPTANCE

4

Your solution tested against your **solution design**

TRANSITION

5

Your solution operating live and **delivering benefits**

PROJECT CLOSE

6

Your **success plan** continually monitored by our experts

Your project

Our tried and tested approach to ensure your success
